

Our statement on COVID-19:

Monday, March 23rd, 2020

To our valued customers,

Due to the Michigan-wide shelter-in-place order that will be put into effect tomorrow, March 24th, we will have minimal in-person staffing available at the shop. Walk-ins and face-to-face customer interaction are highly discouraged. Should you find you are in an emergency and need something that is essential to infrastructure, you may call us for an appointment to be assessed on a case-per-case basis.

The health and safety of our customers and staff is top priority during this time of uncertainty. While following the CDC guidelines, we will continue to do everything in our power to serve the industrial community while acting with utmost caution and respect for this pandemic.

Sincerely,

David Wilusz
President
